Woodcrest Subdivision – (aka Hratch Kaprielian)
Well Testing Application

Dear Mr. Cusak,

We are in receipt of the Well Testing Application (test plan) last revised May 4, 2012 and the Offsite Well Monitoring plan submitted electronically under LBG's cover of May 7, 2012 in response to our April 13, 2012 comments. We have reviewed this information with HydroEnvironmental Solutions, Inc. and well testing may commence in accordance with the Planning Board's April 19, 2012 authorization subject to the following:

1. Monitoring Wells – The Offsite Well Monitoring plan (aerial photograph) dated May 7, 2012 shows three (3) offsite wells within the 1,000 foot radius to be monitored and a cluster of five (5) potential observation wells further to the west which were unresponsive to the applicant's solicitation. Although we would have preferred to have included some of these unresponsive wells to obtain additional data, we believe the wells shown will provide sufficient information to determine impacts.
2. Precipitation – Prior to commencing well testing, the applicant should confirm with the Building Department the previous thirty (30) days precipitation is less than 3.7 inches.
3. Plans – Signed and sealed versions of the electronically provided documents should be submitted for the Building Department files.

If you have any questions, please do not hesitate to call.

Very truly yours,

RIDDICK ASSOCIATES, P.C.

Sean T. Hoffman, PE
Consulting Engineer
